

PRINCIPALITY OF SEALAND

Prime Minister

Season's Greetings 2011–2012

Unfortunately our expectations regarding a peace treaty have so far not been fulfilled. None of the FRG politicians of any political orientation would dare openly to touch on that subject, not even in passing. We ourselves were forced to find that the attitude towards us by the FRG, especially the Brandenburg judiciary, has deteriorated. In October a valued associate of our government suddenly died (according to his widow, third-party implication is not excluded). Even this December, two unlawful arrest warrants were served on the undersigned. Based on the whole situation we decided to activate the Resolution 11/98 with all its consequences. On December 19, 2011, our Minister for Culture and Information, Urs Thoenen, has informed the incumbent Foreign Minister of the FRG, Dr Guido Westerwelle, asking him to in turn inform the Allies. As a result the enforcement was annulled on December 20, 2011, with a handwritten note on the arrest protocol by a judicial officer of the FRG after Prime Minister Seiger presented his diplomatic Sealand passport.

*We now expect that all the breaches of law perpetrated against us in the past will be finally dealt with and the subject of the **Peace Treaty** to end the Second World War will at long last **be tackled**.*

*The government of the PRINCIPALITY OF SEALAND wishes you
in the name of the whole SEALAND team
quiet holidays and a successful energy-rich
New Year 2012.*

Johannes W. F. Seiger
Prime Minister
